Layered Voice Analysis [LVA] is scientific reliable, valid and can be applied fairly to all subjects [employees, employers, informers, victims, airline passengers, etc.] It was not developed to be biased against any group, individual or employee. [Sec 8; Employment Equity Act 55 of 1998].
Mandate

This company was mandated to do LVA interviews with **Employees of** **Name**, to determine any probability of involvement, furthering or knowledge about:

• Honesty Maintenance Interview

Proceedings

The interview with the individual was conducted per Skype using the **Layered Voice Analysis tool (LVA-i)** which was developed by **Name**. The scientific analysis commenced thereafter.

Layers of relevancy probed:

1. Primary involvement
2. Secondary involvement
3. Evidence connecting
4. Guilty knowledge

Question Guideline:

Some interviews divert from the question guideline due to the versatility of the LVA technology and to explore the answer. Questions were not necessarily asked in the same format or sequence due to the same reasons. Irrelevant questions are not mentioned in this guideline. The subject indicated that he/she is aware that it is a company requirement to do regular Honesty Maintenance Interviews.
